SOCIAL MEDIA STRATEGY CONCEPT · UBUD, BALI

Mana Earthly Paradise

Turning a regenerative stay into a clearer direct-enquiry journey.

SMM MANAGEMENT · STRATEGY & CONTENT SYSTEM

Proposed direction · built from current public-facing content and the Mana content-plan concept.

HOSPITALITY GROWTH STUDIO

Why the current Instagram path slows direct enquiries.

Mana already has a rich world to share. The opportunity is to organise it around the questions a new guest asks before booking.

01 MISSION IS HARD TO DECODE

The regenerative promise is present, but an unfamiliar guest cannot immediately see what a stay includes.

02 AESTHETIC WITHOUT A NEXT STEP

Beautiful visuals create desire; the feed needs clearer paths to availability, room types and enquiry.

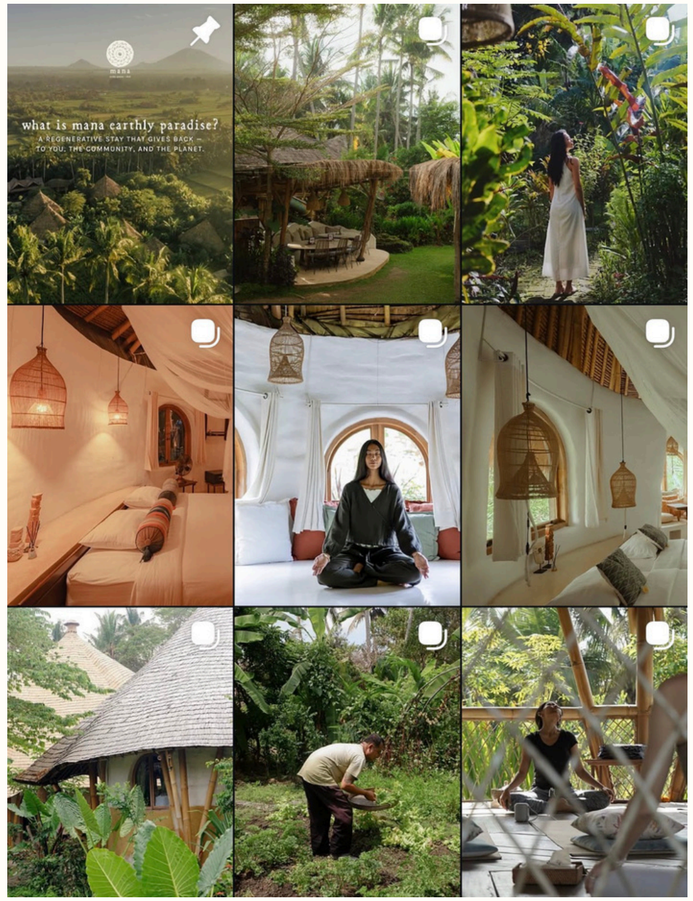

03 STORIES SIT APART

Villas, food, activities and impact appear as separate stories instead of one guest journey.

04 HIGHLIGHTS CAN CONVERT

Useful practical answers should appear before the brand story, so people can self-qualify fast.

CURRENT PROFILE REFERENCE

Observed public feed · strategic review, not a performance claim.

Who should Mana invite in — and what are they choosing?

The content system has one job: make the right guest feel that Mana is the stay they were already looking for.

01

CONSCIOUS SLOW TRAVELLERS

They want calm, nature and a stay that feels considered — without losing comfort.

02

CURIOUS UBUD PLANNERS

They need to see villas, dorms, food and activities in one practical, coherent picture.

03

RETREAT & GROUP ORGANISERS

They are looking for a human route to discuss a programme, group needs or availability.

Warm regenerative living — made legible in the grid.

A feed with a recognisable rhythm.

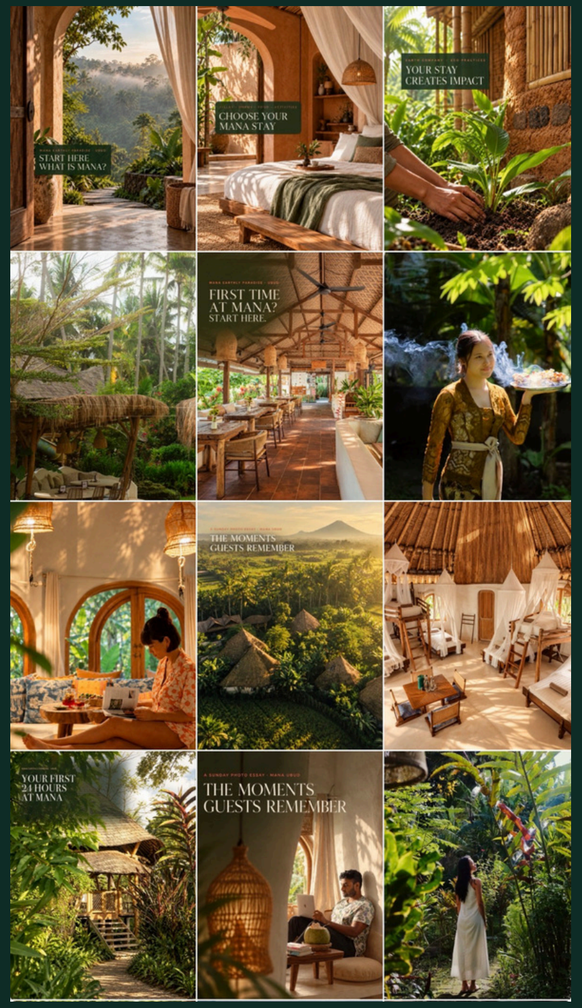

01 Place — sunlit villas, bamboo, jungle and the pace of arrival.

02 People & rituals — kitchen, community, service and lived moments.

03 Proof of impact — Earth Company, regenerative choices and the reason behind the stay.

Result: the mission becomes as clear as the atmosphere — and each visual has a commercial role.

AFTER · PROPOSED GRID

From beautiful Reels to qualified conversations.

Each short-form piece carries one job: attract, explain, invite or route. The CTA stays human — a direct conversation, not a hard sell.

01 HOOK

Open with a real tension: ‘Not every Ubud stay gives something back.’

02 PROVE

Show tangible details: the room, the kitchen, the people and the impact.

03 INVITE

Prompt one action: comment or DM the keyword GUIDE for the stay guide.

04 ROUTE

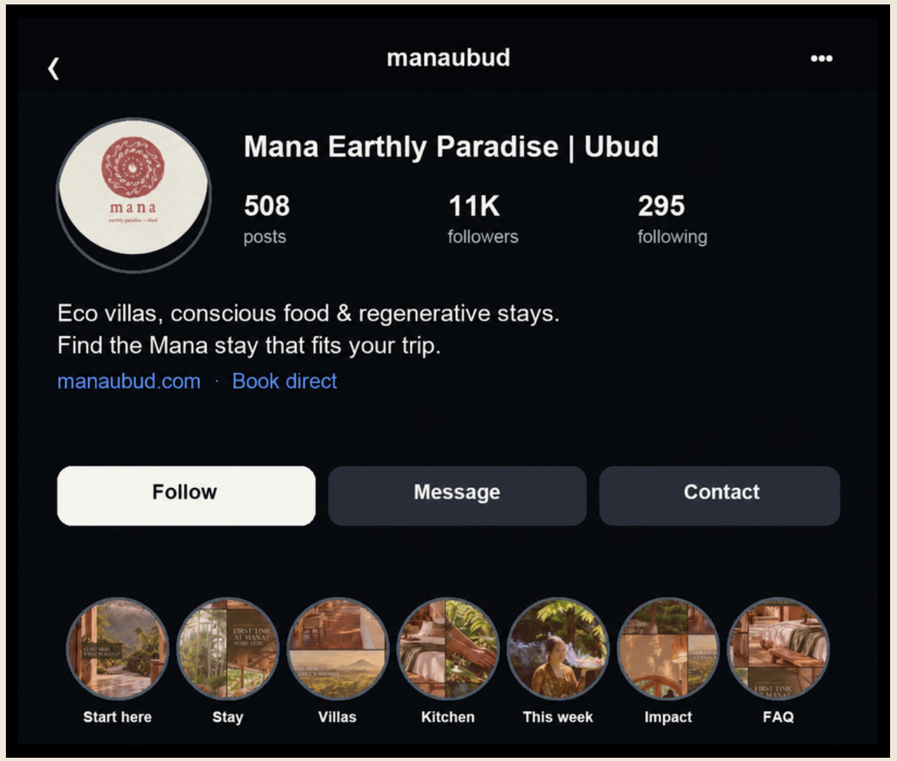

Ask what they are planning: a stay, Mana Kitchen, or an activity / retreat.

REELS & CAROUSEL COVER DIRECTIONS

The profile becomes the decision point.

A new guest should understand the promise, choose a path and find the next action without leaving Instagram.

BIO DIRECTION

Eco villas, conscious food &
regenerative stays in Ubud.
Find the Mana stay that fits your trip.

How your stay creates impact

HIGHLIGHTS IN GUEST ORDER

STAY · VILLAS · KITCHEN · THIS WEEK
IMPACT · EARTH CO. · FAQ · OFFERS

Practical information comes first; the mission then gives the decision more meaning.

A simple 7-day rhythm that builds trust, then intent.

Not more content for its own sake — one repeatable loop that moves guests from discovery to a useful Direct conversation.

MON	**Discovery Reel** A stay that gives back
WED	**Guide carousel** First time at Mana? Start here
THU	**Proof Reel** A day beyond the room
SAT	**Intent Reel** Still choosing where to stay?
SUN	**Photo essay** The moments guests remember

DM KEYWORD · GUIDE

A calm next step for warm intent.

1. Reply with a short choice: Stay / Mana Kitchen / Activity or retreat.

2. Tag the interest stream, share the right guide and hand off to the team when availability or a tailored plan is needed.

Daily Stories support the loop with FAQs, availability cues and social proof.

NEXT STEP

Make the Mana stay easier to choose.

A content system with a guest journey,
clear proof and a human route to enquiry.
