SOCIAL MEDIA STRATEGY CONCEPT · TABANAN, BALI

Suenyo Eco Retreat

Turning slow stays into a clearer reason to enquire.

SMM · CONTENT · DIRECT DEMAND

Proposed direction · based on current public-facing content and a guest-first booking journey.

YULIANA YEMELIANENKO
HOSPITALITY GROWTH STUDIO

A strong atmosphere — with a clearer route to book.

Suenyo already communicates a distinctive world. The next step is to help a first-time guest understand what to choose, why now and how to enquire.

01 STAY CHOICE

A guest can feel the mood, but needs a simple way to choose a pavilion, reset or occasion.

02 FEED ROLE

Each visual needs a job: discovery, consideration, proof or direct action.

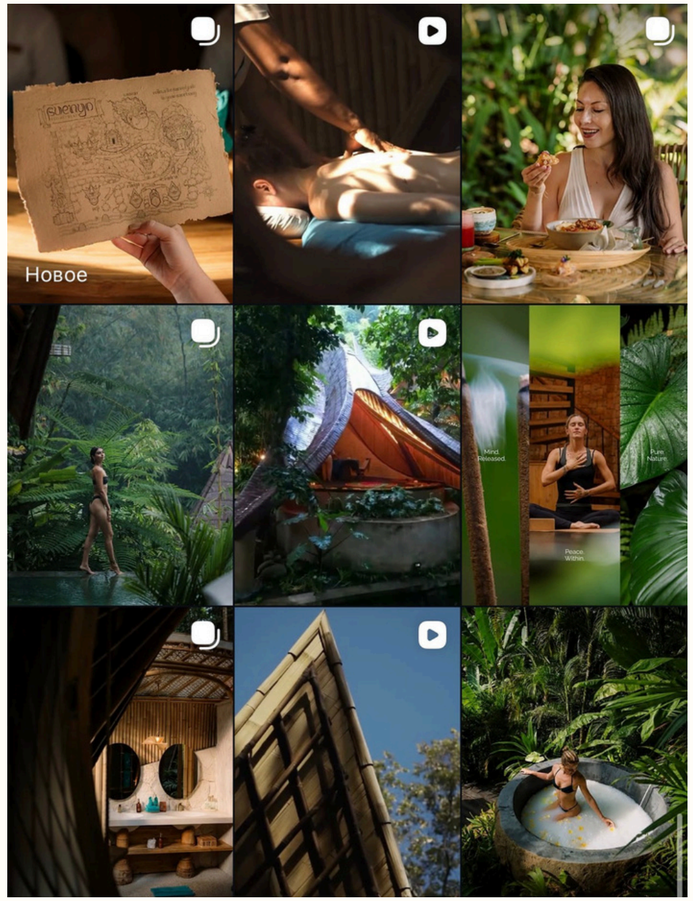

03 DM HANDOFF

The path from saved post to availability should be gentle, specific and human.

04 HIGHLIGHTS

Useful answers — stay, wellness, river, occasions and FAQ — remove repeat questions.

CURRENT PROFILE REFERENCE

Observed public feed · strategic review, not a performance claim.

The people Suenyo can make feel at home.

A private Bali reset, shaped by the river.

01 COUPLES

For guests choosing privacy, texture and unhurried time together.

02 WELLNESS-MINDED TRAVELLERS

For guests who want rituals and recovery without a rigid retreat schedule.

03 OCCASION PLANNERS

For intimate celebrations that feel personal rather than staged.

Content should help each guest recognise themselves before it asks them to book.

An editorial grid that makes the reset tangible.

A 12-post system balancing atmosphere with practical reasons to choose Suenyo.

01 RIVER & REST

Atmospheric entry points invite discovery without losing the feeling of place.

02 PAVILION & PLACE

Architecture and room cues give the guest a language for their preferred stay.

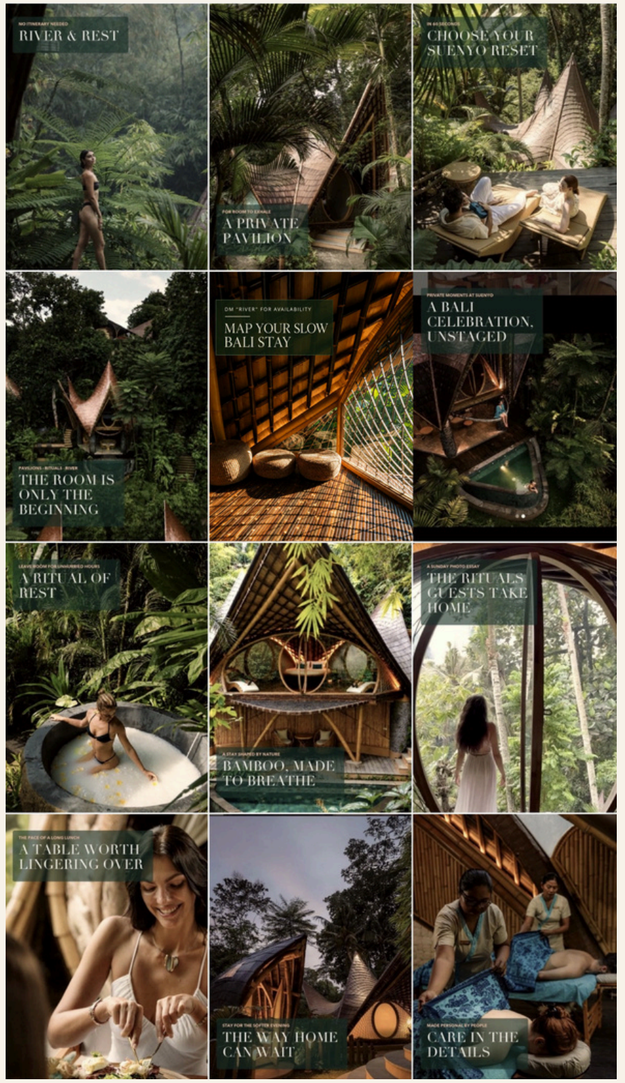

03 RITUAL & PEOPLE

Wellness, food and care turn a beautiful destination into a lived experience.

04 A NEXT STEP

Clear cover language and DM prompts make saving, asking and booking easier.

AFTER · PROPOSED GRID

Four weekly moments. One guest journey.

A weekly rhythm that moves from discovery to a warm availability conversation.

MON AWARENESS REEL

“This is Bali when you choose the river, not the rush.”

WED CONSIDERATION CAROUSEL

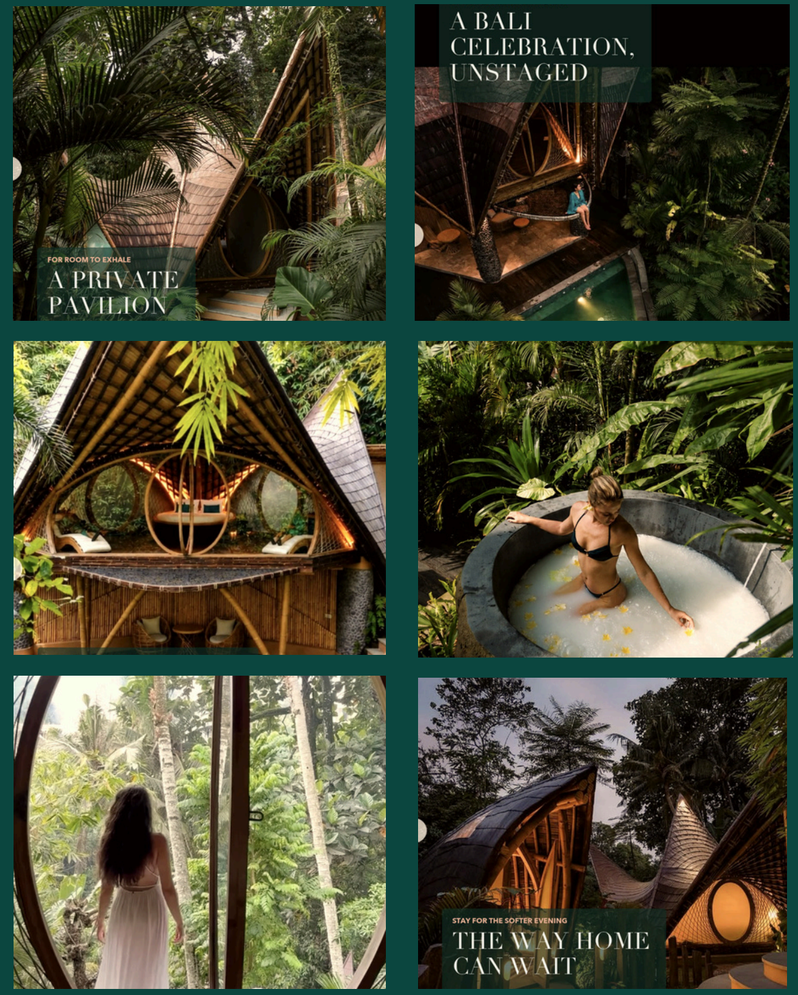

“Choose your Suenyo reset in 60 seconds.”

THU PROOF REEL

“The room is only the beginning of the stay.”

SAT CONVERSION REEL

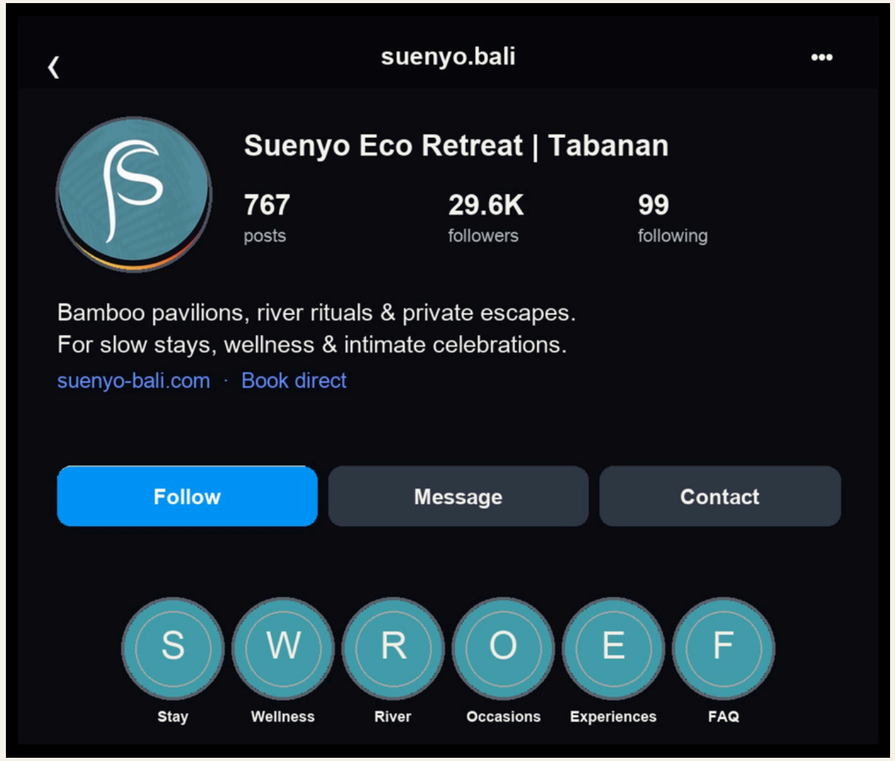

“Planning a Bali celebration that does not feel staged?”

Stories support every post: availability cues, guest questions, saved moments and a calm DM invitation.

The profile becomes the guest’s next step.

Profile language, pins and Highlights should answer practical questions before the guest leaves Instagram.

BIO CLEAR PROMISE

Bamboo pavilions, river rituals & private escapes — followed by a concrete availability route.

PINS START AT THE BEGINNING

1. First time at Suenyo? 2. Choose your reset. 3. The rituals guests take home.

03 HIGHLIGHTS · REMOVE BOOKING FRICTION

STAY · WELLNESS · RIVER · OCCASIONS · EXPERIENCES · FAQ

Proposed direction — not a claim that the changes are already live.

A calm path from interest to availability.

01 DM “RIVER”

The guest messages after a Reel, Story or profile visit.

02 CHOOSE A PATH

Stay · wellness reset · intimate occasion.

03 SHARE THE BASICS

Dates, guest count and the type of escape they have in mind.

04 HUMAN HANDOFF

The team confirms availability, rates and best-fit options.

Suggested first reply: “Tell us your dates, number of guests and whether you are planning a stay, wellness reset or occasion.”

Availability and pricing remain confirmed by the hotel team.

NEXT STEP

Make Suenyo easier to choose.

A profile that invites the right kind of guest.
A content system that gives them a reason to act.

SMM · CONTENT · META ADS

Strategy concept · Suenyo Eco Retreat · Tabanan, Bali
